

Mobile Prescribed Burn Unit

Are you wanting to improve wildlife habitat or other grasslands with a prescribed burn?

Do you need access to prescribed burn equipment?

Check out the "Mobile Prescribed Burn Unit" available through Pheasants Forever!

The Mobile Prescribed Burn Unit is a collection of prescribed burn equipment stored in an enclosed trailer and available for use throughout the state. This equipment is available for PF & QF Chapters, Landowners and Prescribed Burn Associations to use when conducting prescribed burns.

The unit is designed to contain all the necessary equipment to conduct a prescribed burn.

This unit will be available for use on prescribed burns throughout the state starting in 2008 by contacting Pheasants Forever.

It is made available through funding and partnerships with PF & QF chapters, the Nebraska Game & Parks Commission, Nebraska Partnership for All Bird Conservation, Nebraska Environmental Trust, State Wildlife Grant funds and the members of PF and QF.

For more info, contact PF at 308-754-5339 or www.NebraskaPF.com
